Forest Fires—Our Most Shameful Waste

Everyone apparently fears fire but too many are careless with it. This is particularly true of fires and near woodlands. Official figures show that more than 98 percent of all forest fires result from human carelessness and can be prevented. Consequently, we may say "Forest Fires are our shameful waste."

Annual forest fire losses are tremendous and their effects far reaching. Such fires destroy the raw products of the forest, the protection forests provide for game and the supply of ground water. They upset local economies by drawing men from gainful employment and requiring the expenditure of public funds to extinguish them.

Our forest fire organization is doing a good job in keeping the size of fires small but the number of fires is increasing. In 1949 there were 100 more fires in New Hampshire than in 1948, but they burned 500 acres less. For the warden and his deputies to do the job they are capable of, they must have the cooperation of the public—YOU!

The primary objective of all fire fighters is PREVENTION—fire stoppage. This is the goal toward which your local forest fire warden and his deputies are constantly working. It can be achieved ONLY if YOU and YOU and YOU cooperate with them. It is worth YOUR effort and can be accomplished by:

1. Being careful with fire in or near woodland, being particularly careful with matches and cigarettes.
2. Securing the required written permit from the warden when the ground is not covered with snow.
3. Insisting that others be careful and comply with burning requirements.
4. Calling the warden promptly when fire is detected and aiding him to extinguish it.

Let's reduce the number of forest fires and eliminate our most shameful waste.

Number of fires	2
Acreage burned	$\frac{1}{2}$
Number of fire permits issued	0

MOOSILAUKE LIBRARY REPORT

From January 31, 1948 to January 31, 1949, the number of patrons served were 2384, number of books issued 3258. Many thanks for the increased number of patrons is due to the teachers, who have urged the young people to use the Library. Because the Woodstock Library was used so little, it was decided to consolidate. The old adult books were moved to North Woodstock, but some new books, children's books and current magazines are still available at the Woodstock Library, Thursday P. M. from 3:00 to 4:00.

Thanks are due to Mrs. E. Bean, Mrs. E. Osgood and Mrs. May Cox for gifts of books and magazines. Also to Mrs. E. P. Lowden and Mrs. A. Muchmore for help with card party.

HEADMASTER'S REPORT

Woodstock High School

North Woodstock, New Hampshire

January 15, 1950

Arthur S. Rollins, Superintendent

Plymouth, New Hampshire

Dear Mr. Rollins:

I hereby submit my report as Headmaster of Woodstock High School and Principal of North Woodstock Grammar School.

There are, at present, 38 pupils enrolled in the High School and the breakdown of classes is as follows:

	Boys	Girls	Total
Seniors	2	5	7
Juniors	5	6	11
Sophomores	4	6	10
Freshmen	6	4	10
	<hr/>	<hr/>	<hr/>
Totals	17	21	38

To date we have had one pupil drop out of school and one transfer to another school out of the State.

The attendance and tardiness record has improved greatly over that of last year. We still have a few pupils who plan to visit the nearby towns for purposes other than doctor appointments during school hours. As the school is still in session and the right to attend has not been taken from these pupils, it has been advisable to give these pupils a zero mark for the work they have missed during their absence.

Due to our eight period day the pupils are able to do some of their studying during the study halls, but it is still necessary for all pupils to do some studying at home. Pupils cannot do the necessary assignments

and studying for four or five classes during the three or four study halls that they may have. A standard has been set in the Woodstock School to prepare the pupils for College or whatever field they may follow after graduation. This standard will not be lowered to meet the low marks of some pupils who fail to do their assignments or fail to go to a teacher for extra help when the assignments are not understood.

There were seven who graduated from Woodstock High School last year. Three of these are now attending the University of New Hampshire, three are unemployed, and one is employed.

The annual Senior Play, "Salad Days" was presented in December at the Grange Hall. There was record attendance both nights the play was presented.

There has been a great improvement in the Glee Club this year. A new system was worked out in the Fall whereby the pupils in the Glee Club will receive $\frac{1}{4}$ credit towards graduation for their year's work.

Again this year we are most fortunate in having a fine group of teachers throughout the building and it is my hope that these teachers will return to Woodstock next year.

For the teaching staff and myself, I wish to thank everyone connected with the Schools for their helpful cooperation.

Respectfully submitted,

ROBERT C. GILMAN,

Headmaster

ANNUAL REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the Woodstock School Board:

The seventh annual report written and submitted by the present superintendent of schools is intentionally brief and discusses only those items that are considered of major importance. All tabulations except such as should be a matter of public record have been omitted.

Observation indicates that the general condition of Woodstock schools is good. That conclusion is confirmed by measurement through standard achievement tests. Greater efficiency could be realized if some teachers had a lighter pupil load, but we have to make the best of situations that cannot be changed. According to school census returns the pupil load will not be any heavier for a few years but will be felt at different grade levels as pupils advance.

It is expected that summer courses will be offered at Plymouth Teachers College in 1950. The Woodstock budget ought to make it possible for our teachers to receive higher salaries if they attend summer school and they should be urged to do so. Salaries throughout this supervisory union are below the state average as well as below those that are received by recently prepared teachers with no experience. No great imagination is needed to picture what would happen if replacements became necessary. That such replacements have not had to be made is just our good fortune.

Two school districts in this Union received more state aid after legislative economy than they formerly had. Woodstock took a big reduction which had to be made up by a larger local tax assessment. This condition presents a real danger to schools that may become greater as time passes. While Woodstock people have always been generous in supporting their schools, we cannot overlook the fact that continued pressure sharp-

ens human desire to avoid increased financial obligations. That desire should be curbed when it comes to providing proper educational advantages for youngsters who cannot wait for a more convenient season to be prepared for life. School budgets reflect the honest opinions and the best judgment of school officials rather than any desire on their part to spend more money. The responsibility of school officials to state needs is always paralleled by the right and privilege of voters to decide how far they will go in meeting those needs.

A moderate amount of locally built playground equipment would add to the pleasure of pupils as well as promote better physical development. Swings and see-saws at both schools would be a valuable and inexpensive addition. Perhaps in 1950 we can have some built.

Information or explanations beyond what is contained in this report will be gladly given on request.

Respectfully submitted,

ARTHUR S. ROLLINS,

Supt. of Schools

This calendar provides for opening all schools on Wednesday after Labor Day and closing all schools on Thursday, December 21. The fall term of 16 weeks contains 72 school days in addition to one day out for Plymouth Fair; two days for Teachers' Convention; and two days at Thanksgiving.

Since the two Convention days may be counted as a part of the school year, the calendar contains a possible 182 days. If more than two days should be lost because of bad weather, the required minimum of 180 days could be met either by Saturday sessions or by keeping school as long as necessary after June 15.

The Patch Test was given to the high school pupils. It was followed by a Chest Clinic with X-Ray at the Lincoln High School. Pupils who had a positive reaction from their Patch Test were examined and a chest X-ray taken. These clinics are conducted by the New Hampshire Tuberculosis Association, in cooperation with the local health workers.

Miss Grace Felker, Director of Physical Education for New Hampshire State Board of Education visited the high school and examined the pupils for postural defects.

The audiometer, an instrument for testing the hearing will be used on both grammar and high school pupils this winter.
